Please Call or text to make a reservation (walk ins are welcome too). Bring your Uke! Some will be on hand.

WE WILL HAVE GUITARS AND UKES ON SITE FOR SALE. WE WILL ALSO HAVE RECORDINGS, BOOKS, AND ACCESSORIES.

John is an avid lover of anything using an Ukulele or Guitar. He was raised by a father who played the steel guitar and has been playing the soprano uke since the age of 4. John is known for his teaching of novice players at festivals and workshops from coast to coast and having them perform their debut 'uke tune' after only a one hour workshop. He makes playing the uke fun and exciting. John was influenced at an early age by recordings of guitar players such as Roy Smeck, Freddie Green, Charlie Christian, Kokamo Arnold, and Tampa Red. He has carefully studied the guitar as an accompaniment, fingerpicked, and back up instrument. His workshops always include discussions of left hand efficiency and right hand melodic and rhythm techniques. His primary focus is backing up fiddle players of various styles.
